CEO Message

Long-term relationships through providing value to each client.

"From Strategy to Co-Creation: Shaping the Future Beyond Borders"

SASAL was founded in 2022 as a strategic consulting firm. We began by supporting businesses with precise strategies and execution to tackle complex challenges.

However, the dynamics of the global market demand more than strategies—they require a new approach. In 2025, we evolved into the Cross Border Joint Venture Ecosystem, creating a framework that enables companies to co-create value that cannot be achieved alone by integrating diverse cultures, markets, and strengths.

Today, SASAL provides an environment where businesses can achieve sustainable growth across borders through our Cross Border Joint Venture Ecosystem. Building trust, fostering long-term partnerships, and delivering tangible results to every client—this is our mission.

The future expands through co-creation. Together with SASAL, let's unlock new possibilities beyond borders.

Yurino Sakamoto

Thank you
